

**“As the co-creator of
Six Sigma, I want to make
it available to everyone.
That’s why I created the
MindPro® training system.”**

– Dr. Mikel J. Harry

The Black Belt That Doesn't Make You Tighten Your Belt.

Six Sigma training can transform your business and your career. But classroom training is often priced beyond the reach of small businesses and individuals, and other online training just skims the surface. MindPro® is the new online training system that's both thorough and affordable.

What Makes MindPro® Different from Other Online Training Systems?

- Learn directly from the co-creator of Six Sigma via "over the expert's shoulder" video training.
- More in-depth than other online training. Less expensive than classroom training.
- Earn certification in Black or Green Belts from the world's most respected source.
- Access your training or coaching 24/7 from anywhere in the world.
- Utilize an extensive set of tools and resources even after the training is over.
- Customize the curriculum to your organization's needs.
- Black belt training: **\$2,895** - includes best practice coach

Five Delivery Platforms: A Complete System for Training and Ongoing Support

Use all the platforms or just the parts you need.

Best Practice Coach

MindPro® is always available, right at your fingertips. If you have a question, just type in your query and receive results such as coaching packets, or just the right video to address your issue.

Keyword Search

Can't remember that formula? Want to reference an example from the training but you can't remember the details? Type in a keyword, and MindPro® will display results to help you find just what you need quickly and efficiently.

Select programs to suit the training needs at all levels of an organization.

Resources

MindPro® provides you with the tools you need, such as calculators, simulators, exercises, and reference documents...all just a click away.

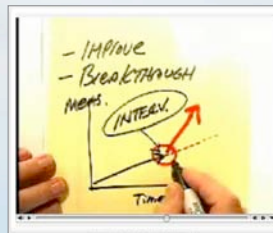

Body of Knowledge

The Lean Six Sigma Body of Knowledge is the master video curriculum for all MindPro® Training Programs. It is often utilized by instructors or trainers to construct custom programs delivered in a digital or blended training program.

Training Programs

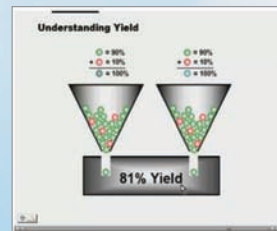

The MindPro® Training Programs have been tested and proven to adapt to all learning styles. They can be referenced and reviewed as needed... even on-the-job, using the Best Practice Coach's search capabilities.

Videos are More Engaging than Standard Online Tutorials

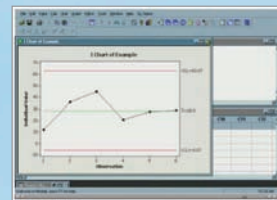

Instructional Video

The "over the expert's shoulder" style videos are proven to be highly effective.

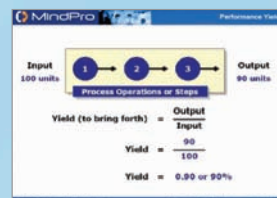

Expansion Video

Examples, animations and simulations expand understanding.

Application Video

Demonstrations show how Six Sigma concepts can be put into practical use through Excel and Minitab.

Summary Slides

Summaries can be printed and saved for future reference and note taking.

 **MindPro**
Lean Six Sigma Online Training & Coaching

Dr. Mikel J. Harry,
Co-creator of Six Sigma,
Wall Street Journal Best-Selling
Author, Consultant to Jack Welch

“From firsthand corporate experience, I know Six Sigma can deliver unparalleled results. That’s why I am working to make sure everyone has the opportunity to benefit from this training.”

Companies including General Electric, Ford Motor Company, Sony, Dupont, Toshiba and Bombardier are among the 40 global corporations that have improved processes and saved millions by following Dr. Harry’s curriculum and instruction. Now you can receive Dr. Harry’s training and ongoing coaching online 24/7, at a cost affordable to companies large and small, and even individuals.

For Large Businesses and Corporations

If your company has already started Six Sigma and is ready to integrate it companywide, training costs can be reduced significantly (by 50% to 75%). If your company has not started Six Sigma, start by using MindPro in one business unit and then expand. Costs are only a fraction of the traditional Six Sigma training. Unlimited license also available.

For Small Businesses

Implement MindPro on a small scale and start saving within a few months. After you see results in your operations, you can expand into wider usage.

For Individuals

Distinguish yourself as a leader by learning Six Sigma and earning official certification on your own time at your own pace.
